

Protoy Kumar Roy

Master of Data Science Candidate / Business & Data Analyst

PROFESSIONAL SUMMARY

Master of Data Science candidate at Adelaide University with a background in computer science and experience in data projects, security work, university volunteering, and customer-facing roles. Recognised with the Vice Chancellor International Scholarship and UniMentor Leadership Award and completed the UniMentor Core Program. Skilled in Python, SQL, data analysis, visualisation, and machine learning, with strong communication, attention to detail, and a reliable approach to work. Seeking an entry-level role in data, analytics, or a related field where both technical skills and practical workplace experience can be applied.

EDUCATION

Master of Data Science — Adelaide University

2024 – Present — Adelaide, SA

(Previously commenced at University of South Australia prior to transition to Adelaide University)

Bachelor of Technology in Computer Science & Engineering — Maulana Abul Kalam Azad University of Technology (MAKAUT)

2018 – 2022 — West Bengal, India

CGPA: 9.04/10

TECHNICAL SKILLS

Programming: Python, SQL, R

Data Analysis & Visualisation: Power BI, Tableau, Excel, pandas, NumPy, scikit-learn, Jupyter Notebook, RStudio

Data Handling: CSV, JSON, data cleaning, and preprocessing

Tools & Platforms: Git, GitHub, VS Code, Microsoft Office, Google Sheets

Web Technologies: HTML, CSS

PROJECTS

Industry Capstone Project — Aerometrex Big Data Curation Framework

February 2026 — Present

- Contributing to an industry-based data science project focused on structuring and managing unstructured business and geospatial data for future LLM integration.
- Supporting analysis of documentation, reporting workflows, and data storage processes to improve data accessibility, compliance, and operational efficiency.

- Working with concepts related to data curation, document processing, business analytics, and scalable information management.

PREDICTING FOOTBALL PASS COMPLETION (STATSBOMB 360)

— Semester 3, 2025

- Built an interpretable decision-tree baseline with a clean train/test split by match; reported Accuracy, Precision/Recall/F1, ROC-AUC, and PR-AUC; pruned for compact, explainable rules.
- Engineered spatiotemporal features to enhance prediction accuracy and interpretability for football analytics.

SINGAPORE FERTILITY TIME-SERIES

— Semester 3, 2025

- Compiled 1960–2024 indicators; tested ARIMA/ETS baselines with hold-out validation and policy-aware interpretation.

EXPERIENCE

Product Demonstrator— Club Demonstration Services (CDS), Costco

October 2025- Present—Adelaide, SA

- Presented products and engaged with customers in a busy retail environment at Costco.
- Provided product information, answered customer questions, and supported positive customer experiences.
- Maintained presentation standards, sample stations, and hygiene requirements in line with workplace procedures.

Security Officer — Nexar Group

Feb 2025 – Present — Adelaide, SA

- Performed access control, entry and exit screening, and routine patrols while maintaining accurate incident records and radio communication.
- Monitored CCTV, identified and escalated incidents in line with procedures, and supported safe operations in public-facing environments.
- Applied conflict de-escalation, customer service, and workplace safety practices while working effectively in busy and fast-paced settings.

UniMentor — University of South Australia

Jan 2025 – Present — Adelaide, SA

- Guided commencing students on study planning, UniSA services, and assessment expectations; referred to specialist support where appropriate.
- Facilitated Q&A channels and small group check-ins; documented common queries to improve handover notes for the team.

Data Entry Operator — Health Care Specialized Hospital

Oct 2023 – May 2024 — Panchagarh Sadar,
Bangladesh

- Entered and verified patient/administrative records from paper and digital sources with attention to accuracy and confidentiality.
- Cross-checked entries against source documents to reduce discrepancies; flagged data quality issues to supervisors.

Software Developer (Intern) — Bassetti India

Jun 2022 – Sep 2022 — Kolkata, India

- Assisted with feature implementation and bug fixes under supervision; wrote clear commit messages and basic unit tests.
- Participated in code reviews and daily stand-ups; documented small modules for handover and future maintenance.
- Learnt practical SDLC practices (issue tracking, branching, simple CI concepts) and teamwork in a professional environment.

CERTIFICATIONS

- Introduction to Scripting in Python — Rice University (Coursera), 2020
- Deep Learning in Computer Vision — HSE University (Coursera), 2020
- AI For Everyone — DeepLearning.AI (Coursera), 2020
- The Bits and Bytes of Computer Networking — Google (Coursera), 2020

ADDITIONAL INFORMATION

Working With Children (WWC)

Responsible for Alcohol Service (RSA)

National Police Clearance

Work rights: Valid Australian visa with work rights
